

Greetings from PS 106,

This document will help you prepare your child to take the MAP Growth test.

### What is MAP Growth?

MAP Growth helps teachers understand what students know today, so goals can be set to improve growth throughout the year. **Students cannot pass or fail this test.**

It's normal for students to only answer about half the questions correctly. **Please don't help them!**

Given the challenges of learning from home, MAP Growth test results are especially helpful for us this year. **These results will help us know what students are ready to learn.**

## Test Preparation

1. Make sure your child's device meets testing requirements using the [Device Readiness Check](#)
2. Make sure the NWEA Secure Testing app is installed if they are using an iPad
3. Watch the MAP Growth [introduction video](#)
4. Take a look at a sample test at [practice.mapnwea.org](https://practice.mapnwea.org)  
(Username: grow, Password: grow)
