

Hello Educators,

Here are some more virtual trips for you to assign your students to go on.

Please keep in mind that you must always:

1. Pick an age and grade-appropriate virtual field trip.
2. You should view the virtual trip before assigning to students.
3. Give students the specific link to the virtual trip and not a link that says “25 virtual trips” and expect them to go searching.
4. If you assign a webcam virtual trip please consider the possibilities of what students might see and know that animals are unpredictable.

Enjoy safely!
